Dear New International Student:

Congratulations on your admission to Faculty of Medicine, Cairo University, the oldest and by far the largest medical school in the Middle East. This guidebook will help you to adjust into the academic community and to support you while you successfully complete your programme of study.

Kasr Al Ainy Medical School enjoys an excellent teaching, research and public service reputation. The campus includes nine hospitals, 5200 beds, museums, 14 large lecture halls, libraries, medical education center and learning resource center. Acting staff members of more than 3000. Our qualifications are recognized and valued around the world. Graduates of our medical school go on to further study and/or to work in some of the world's finest health organizations.

Kasr Al Ainy attracts students and scholars from across the globe with more than 1300 Non-Egyptian students of 37 nationalities among a student population of 9700.

This makes Kasr Al Ainy an outstanding medical educational institution in Egypt.

I offer you my best regards and wish you a successful, pleasant stay.

Nadia El Feky
Vice Dean for Education & Student Affairs
2009-2010
Vision:

By year 2011 Faculty of Medicine Cairo University would be internationally recognized as a center of quality education with highly skilled graduates, delivering excellent medical and health services to the community and contributing to advanced medical research.

Mission:

- To Develop an outstanding and honorable primary care physician, who follows medical ethics and is ready for life long learning.
- To train a professional, specialized graduate able to conduct research and apply national and international standards of medical care.
- To serve the community through enhancing specialized projects which share in solving national health problems.
University Calendar 2009-2010

- Classes begin: 3rd of Oct. 2009
- Mid year exams: 23/1/2010
- Mid year recess: 6/2/2010 (For two weeks)
- Onset of second semester classes: 20/2/2010
- Onset of final exams: 29/5/2010

Expected Official Vacations During Academic Year 2009-2010

6th of October Victory Day: Tus. 6th October
Eid el Adha Holiday: Wed. 25 Nov. 2009
Eastern Christmas Holiday: Thr. 7th of Jan 2010
Police Day: Mon. 25th of Jan 2010
Sinai Liberation Day Holiday: Sun. 25th of April 2010
Labour Day Holiday: Sat. 1st of May 2010

Prof. Mohamed Hani Mohamadi
Vice Dean for Community Services
The Letter of Prof. Hosam Mohamed Kamel,
President of Cairo University, for the
new academic year 2009/2010

Dear Colleagues …… Dear Students,

Welcome to the new academic year, in which we will work so hard to fulfill our new strategy in all the fields including the academic work, postgraduate studies, scientific research, teaching, environmental service and social development, and students' activities.

The most important purpose of this strategy is to achieve educational, cultural and research development, as we always seek continuous progress in all fields according to accurate plans which cope with the new variable and quality standards.

We are entitled to fulfill a certain mission which is reaching the furthest possible point in the development process during the coming few years. This will only be achieved with a definite strategy that depends on advanced teaching skills, research scientific methodology, technical performance in management, and above all developing the teaching staff and administrators' skills in order to bring about advanced students on the academic, behavioral and skills levels.

As we try our best to place Cairo University in its deserved position internationally, we believe in our administrative vision and possibilities. In addition, we believe in our ability to fulfill our ambitious dreams of achieving a bright future for this ancient university.

Since we aspire to the future of our university, we have a lot of work to do and we expect all the faculties to fulfill its complete duties this year. We expect them to do their intended job in developing the students' characters, enhancing their intellectual capabilities and enlightening them about both their society and the development process, whether developing their
nation, or their personal abilities. In addition to the role of these faculties in spreading the cultural, political and technical awareness among the students.

The continuation of Cairo University leadership during the coming period depends on the permanence of the development and modernization process to suit the national and international variables. Consequently Cairo University aims at maintaining continuous development which makes it a pioneer during its present and promising future, depending on the possibility of gratifying the needs of the Egyptian and Arabic society of educational and research services which add to the people and the society.

Finally, best wishes to all our colleagues from the teaching staff and our dear students ……. I hope that their expected contribution in building our society will result in better future.

God be with you all, and peace be upon you.
The Letter of Prof. Ahmad Sameh Farid
Dean of Faculty

Dear medical students:

Sons and daughters, I would like to welcome you in Kasr Al Ainy Medical School, the largest and oldest medical institution in the Middle East. It was established year 1827, along 180 years thousands of doctors graduated and millions of patients were treated. The name of Kasr El Ainy will always mean treatment of poor patients; famous graduates spreading all over raising its name.

This giant Medical Institute Constitutes nine university hospitals, more than five thousand beds, more than ten thousand clerks; an more than three thousand staff members. The hospitals accept more than 1.5 million patients every year.

Dear students, this is your first real choice to study medicine. You have to do your best to study and practice in order to excel.

Medicine is a noble mission based on very special ethics and behaviours aiming at welfare of mankind.

Our staff members will do their best to guide you to modern medical education applying recent learning resources to help you to excel in the rapidly progressing world.

Again you are welcome among Faculty of Medicine's family and God bless you.
HISTORY OF THE FACULTY

March 11th, 1827 witnessed the inauguration of the school of medicine at Abou Zaabal as a 6 year study program on assembly of the Paris Medical School. In 1832, Clot Bye sent the distinguished 12 graduates to Paris to complete their studies by the greatest medical professors in France. On returning, they would be the first nucleus of the Egyptian medical academic staff. By the year 1837, the number of graduates reached 430 doctors. It was out of a desire for expansion that the school of medicine was moved from Abou Zaabal to Kasr El-Ainy, where the faculty currently functions as the oldest School of Medicine in Egypt. This building dates to 1466 for Ahmed Ibn El-Aini the older son of El-Sultan Khoshqadam in 1882.

Historical Highlights:

- In 1882, the directorship of Kasr El-Ainy School was accorded to Prof. Eisa Hamdy Pasha. The school was rebuilt to accommodate 500 students. In 1885, the doors of the outpatient clinic were reopened to the public.
- In 1898, Dr. Keating, the professor of Anatomy, was appointed the president of the school.
- In 1925, the school of medicine was incorporated into the Egyptian university and was called the Faculty of Medicine and a school of dentistry was attached to it.
- In 1927, it was decided that a new hospital with 1200 beds and a new modern medical school should be established. King Fouad laid the foundation of the new faculty and its hospital on December 16th 1928.
• In 1929, Kasr El-Ainy Council elected Aly Pasha Ibrahim as a dean of the faculty and director of Kasr El-Ainy.

• 1940, the Faculty of Medicine of Alexandria University was established under supervision of Kasr El-Ainy, then followed the Ain Shams Faulty of Medicine in 1950.

• In 1955, the schools of Pharmacy as well as dentistry were turned to Faculties. Then the high institute of nursing was established.

• In 1959, the Oncology Institute was established inside the faculty till to later separate.

• The advancement and expansion continued throughout the following years by establishing different units that are scientifically distinguished as well as technically equipped with the latest modern instruments and devices.

• At present time, the Cairo University hospitals affiliated to The Faculty of Medicine comprise more than 5200 beds constituting the largest medical institution in the Middle East and probably one of the largest centers in the world.

• Kasr El-Ainy is considered a symbol of the medical profession in Egypt, a stronghold of science and culture and a towering image of human mercy. Hence the founding date of Kasr El-Ainy on 11 March 1827 was appointed as the day of the annual festival for the Egyptian Medical profession.

Academic Support Resources

**Lecture halls:**
There are 14 central lecture halls which can accommodate from 300 to 1000 students (4 of them can accommodate 1000 students, all are centrally air conditioned). Ten were renewed 2008-2009.

Each lecture hall is provided with suitable audiovisual aids with continuous technical support and maintenance.

Besides each department has one or two small lecture halls which can accommodate about 100 students and are provided also with the suitable audiovisual aids.

**Dissection Rooms:**
There are two large dissection rooms, one was renewed and air conditioned year 2006-2007.

**Museums:**
The faculty has many medical museums in the different department which contain thousands of demonstrative specimens as anatomy, pathology, surgery and obstetric and gynecology museums.

**Libraries:**
There are different types of libraries that can be used by undergraduate students:
The undergraduate library, the postgraduate library. Digital library at the Learning Resource Center connected to seven medical schools libraries and to central Cairo University library (November, 2007).

Departmental libraries (in some academic and clinical departments).

**The new students' library:**

It was established year 2008-2009 with a large air-conditioned reading hall (160 students) with wireless network coverage. The digital library has 42 computers connected to the internet at three halls. Also thirty laptops are available for students. The library is also supported by audiovisual facilities sound system, data show, two large screens ... etc.

Hundreds of recent international and national textbooks are available. The library can be used for teaching on-line e.g. E-courses designed by faculty staff are available at C.U. website. The computers and laptops were presented from Ministry of Communications, while Cairo University supported the internet connection. The library is self-financed by Faculty of Medicine.

**Computer labs:**

There are computer labs in the Medical Education Development Center (MEDC), learning resource center and some departments as biochemistry, Pediatric departments and Internal Medicine.

**Skills labs:**

There are two central skill labs in the Learning Resource Center (LRC) and Mubarak-Kohl institute in addition to skill labs in the gynecology and pediatric department.

*The new student's library 2009-2010*
The new student's library 2009-2010
Medical Education Development Center (MEDC)

The center was established at by Prof. Yeheia El Battawi 1985 for improving and developing the educational process in the faculty.

Available services for students:

Free internet access
Computer labs with internet connections for teaching and assessment
Technical support for research projects
Production of some learning materials as CDs, videos and books
Teaching and examination of computer science for first year students
Conduction of workshops as: first aid, computer skills and evidence based medicine

The Medical Education Development Center (MEDC)
Learning Resource Center (LRC)

Mission:
To provide the "ideal standard" for the learning environment

Objectives:
- To provide medical students with innovative tools and opportunities to acquire knowledge, skills and attitudes that will enable them to become effective and safe members of the health care society.
- To employ the latest advances in Information and Communications Technologies (ICT) to enhance medical education, practice and research.
- To acquire, maintain and provide access to comprehensive educational aids that support the curriculum.
- To help students develop good study habits and effective learning strategies.
- To provide a modern well-equipped facility that contributes to study and clinical training to maximize access to information for students, house-officers, residents and Faculty members.
- To train medical professionals on using innovative teaching methodologies and information technology for professional purposes.

Infrastructure
The LRC is a six-floors building equipped with a large auditorium (700 seats), 2 medium sized lecture theatres (400 seats) and six mall lecture rooms (70 seats) suitable for conducting workshops, seminars and symposia. Composed of:

A. ICT network.
B. 7 servers with dual processes & 2 quad serves.
C. A 10Mb broad band leased line Internet connection, a 34 Mb Internet 2 connection connecting the LRC to local, regional & international academic centers and a WiFi Internet connection throughout the center where cables are difficult to reach.
D. LAN connections connecting the LRC to the Surgical Suites in the Hospital, Radiology unit, Hospital units & Faculty Administration building.
E. 2 computer labs with a total of 38 workstations.
F. An e-learning platform from IBM.
G. Skills labs equipped with the latest simulators, models, mannequins, high fidelity computed surgical simulators and videoscopic workstations for GI Endoscopy & Bronchoscopy.
H. A Wet surgical Lab quipped with 8 operating workstations with laparoscopic devices, surgical instruments & accessories.
Animal OR with 4 fully equipped operating tables

*The clinical skill's lab*
Quality Assurance Unit

The faculty has established a quality assurance unit to assure compliance of the educational activities to the national standards as a prerequisite for national accreditation.

Conference Center

The faculty has a conference center which has a main conference hall which can accommodate about 900 audience and 2 small halls which can accommodate about 150 audiences. The halls are air conditioned and are provided with proper audiovisual aids. The conference center is used for conferences, seminars and presentation of thesis and research projects.

Faculty Museum

The museum contains documents for the history and development of our medical school. Each student must visit this museum to be proud of belonging to this institute.
University Hospitals

Kasr Al Ainy Hospital is the largest and oldest hospital in Egypt and the Middle East

- **Al Manial University Hospital**: Constitutes three floors, 36 departments 36 operation theatres, 1494 beds, 1422 doctors, 235 pharmacists, more than three thousands staff members.
- **Gynaecology & Obstetrics Hospital**: 3 floors, 258 beds, 4 operation theatres.
- **Emergency Hospital**: 9 floors 198 beds, 3 operation theatres.
- **Internal Medicine, Hospital**: 7 floors, 339 beds.
- **Specialized pediatric Hospital (Alyabani)**: 7 floors, 374 beds, 8 operation theatres.
- **Monira Pediatric Hospital (Abu El Rish)**: 6 floors, 258 beds, 6 operation theatres.
- **Preventive Medicine Center**: 23 beds.
- **Oncology & Nuclear Medicine Center**: 103 Beds, one operation theatre.
- **Critical Care Unit**: 53 beds.
- **Nephrology Unit (King Fahd Unit)**: 93 beds, 4 operation theatres.
- **Specialized Manial Hospital**: (Forth floor): 283 beds, 10 operation theatres.
- **New Kasr El Ainy Teaching Hospital (French hospital)**: 10 floors, 1208 beds.
  It includes: Internal Medicine department, Surgery Department, Special Surgery Department, Critical Care Unit, Blood bank, Central Laboratory, Radiology Department, 18 operation theatres, 28 electric elevators.
- **Outpatients Clinics**: For all specialities more than one million patient treated/year.
- **Teaching & Treatment Departments**:
  - Internal Medicine 8 Departments
  - Special Medicine 6 Departments
  - General Surgery 6 Departments
  - Special Surgery 5 Departments
  - Central laboratories
  - Diagnostic Radiology Unit
  - Blood bank, Endoscopy Unit, I.C.U.
- **Operation Theatres Unit**: 18 operation theatres very well equipped.
- **Clinical Toxicology Center**: 3 floors, 26 beds, 24 hours service
  T/fax: 23640402

24
Student Support Offices

Student Support Office:

Prof. Nadia El Feky, Vice Dean for Undergraduate Education and Student Affairs, founded the student support office in September 2006, with the supervision of professors from academic and clinical departments and announced working hours.

• The office objectives

1. Attaining communication with the students and studying their educational and social problems.
2. Explaining the regulations of study and examinations.
3. The early discovery of cases of academic difficulties and providing necessary support through cooperation with the different departments.

• The students continuous follow-up, discussing their problems, and explaining the exams regulations lead to a noticeable reduction in the numbers of students who postpone exams.

• The offices maintain the application of the standards of justice, equity, indiscrimination and transparency.

• The student support office is linked to the office of the vice dean for undergraduate education and student affairs.

• Office hours: 11 a.m. – 12 p.m. from (Sunday to Thursday).

• Contact
  o Tel: 23682030   E-mail: Sa@kasralainy.edu.eg

• The office staff for the academic year 2009/2010:
  o Prof. Nadia El Feky / Vice Dean for Undergraduate Education and Students Affairs / President
  o Prof. Dr. Dawlat Salem / Biochemistry Professor / Member
  o Prof. Dr. Mohamed Shehata / Chemical Pathology Professor / Member.
  o Prof. Dr. Hisham Atteya / Pharmacology Professor / Member.
  o Assistant Prof. Sahar Al Wakeel / Internal Medicine Assistant Professor / Member.
  o Doctor Zeinab Al Maadawy / Histology Lecturer / Member.
**Academic Support and Counseling Office:**

- The office was founded in October 2007 with the Faculty council approval in October 2007.

- The academic support and counseling office objectives:
  - Providing the Psychological support, through a group of Professors of Psychiatry, to the students who are subjected to psychological and nervous stresses.
  - Discovering the students who are prone to academic stumbling due to Psychological reasons and looking after them.
  - Providing the academic support to successful students.

- The office is linked to the office of the Vice Dean for Undergraduate Education and Students Affairs.

- Office hours: 11 a.m. – 12 p.m. (Sunday to Thursday).
  - Tel.: 23682030  E-mail: Sa@karsalainy.edu.eg

- The staff:
  - Prof. Nadia El Feky / Vice Dean for Undergraduate Education and Students Affairs / President
  - Prof. Dr. Lamis Al Raay / Professor of Psychiatry / Member.
  - Prof. Dr. Noha Sabry / Professor of Psychiatry / Member
  - Mrs. Amal Mohamed Ahmed / Psychology Specialist / Member.

- There is an add for the office on the faculty website.

- The job description of each group is set according to the office objectives and some work regulations are approved then classified, followed and maintained according to each separate case or situation.

- The office promises to perform a periodic follow-up to all the students who are prone to psychological stress, and guarantees complete secrecy.
The Office of Excellent Students:
- Founded in June 2009 with the Faculty Council Approval in June 2009

The office objectives:

- Providing academic, social and psychological support to excellent students.
- Designing programs for these students to help them to develop their leadership and research skills.
- Encouraging them to participate in and attend some committees and use their opinions to develop the education process.
- The staff:
  - Prof. Nadia El Feky / Vice Dean for Undergraduate Education and Students Affairs / President.
  - Prof. Dr. Lamis Al Raay / Psychology Professor / Member.
  - Prof. Dr. Hanaa Al Degwi / Internal Medicine Professor / Member.
- A meeting was held with some excellent students who were honored by the faculty administration, during the excellent students' party in February 2009, in order to introduce them to the office and its objectives.

The International Students Office:
- Prof. Nadia El Feky, the Vice Dean for Undergraduate Education and Students Affairs, founded the International students' office in December 2007; it was approved by the faculty council in December 2007.

The Office Objectives:
- Taking care of the international students and solving their problems, especially the new comers.
- Selection of two representative students from each country to represent their issues to the office.
- Supporting the Malaysian students who are studying according to the Malaysian agreement.
- Facilitating the international students' accommodation with the faculty environment through coping with the academic process and participating in the different students' activities.
• The staff:
  o Prof. Nadia El Feky / Vice Dean for Undergraduate Education and Students Affairs / President.
  o Prof. Dr. Hanaa Al Degwi / Internal Medicine Professor / Member Mentor for Malaysian Students.
  o Prof. Dr. Heba Mostafa / Internal Medicine Professor / Member, / Mentor for Malaysian Students.
  o Prof. Dr. Hussein Kheiry / Surgery Professor / Member.
  o Prof. Dr. Mohamed Shehata / Chemical Pathology Professor / Member.
  o Prof. Dr. Aman Faisal / Ophthalmology Lecturer / Member.
  o Doctor Khalid Al Samaan / Office Coordinator.

• The job description for each work group is set according to the office objectives and some work regulations are approved then classified, followed and maintained according to each separate case or situation.

• Two representative students are chosen for each nationality.

• An annual meeting is held with the new Malaysian students and the vice dean and the office staff in order to welcome the students introduce the faculty programme and the English Guidebook.

The international students office had came up with an unprecedented activity which is "The first and the second festival for international students".
Educational Agreements with Kasr Al Ainy Medical School

- **Cooperation agreement between the faculty of medicine, Cairo University, and the faculty of medicine of 6th of October University:**
  Kasr El Ainy is training clinically more than 800 students from the 6th of October University in the fourth, fifth and sixth grades in the Cairo University Hospitals due to the agreed upon protocol which was signed by both faculties and which has been renewed for the fourth time this year.

- **The agreement between Cairo University and Malaysian Government:**
  The agreement was signed at 22 May 2006, to teach the Malaysian students the undergraduate programme of the Kasr Al Ainy medical school in English. Their names are enrolled among those of the Kasr Al Ainy students and they will be subdued to all bylaws and legislations. Moreover they study the Arabic language by professors from the faculty of arts. Extracurricular courses are also delivered eg. Clinical skills lab training for second year students and a virtual anatomy course for first-year students (Academic year 2007-2008). The agreement is being implemented for the forth year (2009/2010), and the students are making good progress.
A students' exchange agreement with the faculty of Medicine, the University of Lille, France:
The agreement was implemented in 2007/2008 for the second year, as five students from the University of Lille attended the elective summer training, and four students from Kasr Al Ainy traveled to be trained in the University of Lille for the year 2007/2008. The agreement requires fluency in the French language.
Training Programmes for Foreign Students from Different Universities

- The coordination for medical schools students from different universities is done by means of the e-mail of the Vice-Dean's Office for Education and Student Affairs: Sa@Kasralainy.edu.eg.
- Students come to attend the elective training in the clinical departments in the different hospitals after the departments' consent and the appointment of a training coordinator from the faculty staff.
- The clinical training is a part of the elective courses which the student has to attend and which are necessary for his/her graduation.
- Thereby included a list of the foreign students who completed the training in the hospitals of Kasr Al Ainy Medical School in the different departments.
The Foreign Students who completed the Elective Training in the faculty in 2008/2009

1- Payment of the students' dormitory Hostel.
2- Payment of Faculty studying fees.
3- Offering scientific books
4- Healthcare and Medical eye glasses
5- Clothes, plus arranging fairs for clothes with symbolic prices.
6- Medical equipments that are needed by the students during their clinical studies.

**How to obtain the services:**

1- Contact the social welfare clerk in the office of youth care sponsorship.
2- Fill certain form stating the type of service required.
3- Endorsement of that form from the students affair office in the first floor of the administration building.
4- Return of the form to Youth Office
Youth Care Center
(Pastoral Support Center)

Site: Behind the conference center. Staff members of the center in collaboration with student's council supervise students activities. Three committees are included for social activities, sportive activities & cultural and artistic activities

Besides the center supervises financial support for some students controls delivery for hot meals for reduced prices and supervises delivery of free books through "University Book Project"
The Student Hospital
The Old Building

1) Consists of four floors and includes:
   - Emergency Room (ER): capacity 4 beds
   - 15 Specialized Outpatients Departments (OPD): OBG, ENT, Chest, Surgery, Ophthalmology, Dermatology, Urology, Internal medicine for males and females, Psychiatry, Cardiology, Physiotherapy, Diabetes, Orthopedics and Neurosurgery.
   - 2 Dental clinics.
   - 5 Inpatients Departments - 100 beds
   - Operating Room (OR): 4 tables
   - Laboratory
   - Radiology
   - Pharmacy
   - Laundry
   - Kitchen
   - Nephrology and Dialysis; 9 machines
   - Rehabilitation Department.

2) An average of 64,219 students were seen by the OPD last year

3) An average of, 1238 students were admitted in inpatients departments

4) An average of 992 students were operated upon.

5) The Hospital is also responsible for treating some of the faculty members and the people working in the university.

6) The hospital also provides treatment for symbolic prices.

7) A major renovation operation has included the OR, kitchen, laundry, also outside passages and the garden.
New Building

Consists of four floors and include:

- 12 Specialized Outpatients Departments (OPD): ENT, Surgery, Ophthalmology, Urology, Orthopedics, Dermatology, Internal medicine for males and females, OBG, Chest & Pediatrics, Psychiatry, Cardiology.
- Dental clinic
- Self paying patients' pharmacy
- Intensive care unit (8 bed for critical care), (4 beds for intermediate care)
- Gastroenterology Endoscopy Department.
- OR (4 operating rooms and 1 recovery room).
- IPD capacity 48 beds

Hospital Telephones
35721088 - 35739677 – 35721157
Students' Affairs Department

Site: 1st floor at the Administration building. Responsibilities include collection of fees, delivery of students identification cards, certificates, keeping students files … etc.

Graduates department is responsible for delivery of graduates certificates, graduates files.

Students' Union

Students union is composed of elected Egyptian students. The council includes seven different committees for different activities e.g. social, cultural, sportive, artistic .. etc.

Each committee is supervised by a staff member as a mentor and includes two representing students of each grade. The students union is headed by the Vice Dean for Education.
Graduation Day

14, March 2009

The graduates (Nov. 2007) were named after Prof. Dr. Mamdouh Gabr. H.E. Minister of Health. The ceremony was attended by:

H.E. Prof. Hatem El Gabaly  Minister of Health
H.E. Prof. Tarek Kamel  Minister of Communications
H.E. Prof. Ahmed Darwish  Minister of Administrative development
Prof. Hamdi El Sayed  Head of Doctor's syndicate

The distinguished guests were welcomed by Prof. Hosam Kamel, President of Cairo University and Prof. Sameh Farid, Dean of Faculty.

Prof. Dr. Mahmoud El Manawi, Prof. Dr. Rashad Barsoum and Prof. Dr. Sherif Omar, eminent graduates of Kasr Al Ainy were gratified for their rich and distinguished history.
The First International Student's Festival for Kasr Al Ainy Medical School
(19, March, 2008)

- Under the supervision of the Vice Dean for Education, and the bureau of the delegated staff, the students organized the first international students festival in Kasr Al Ainy on the 19th of March 2008.

- Students from eleven countries participated in the festival, these countries are Syria, Palestine, Jordan, Yemen, Sudan, Al Bahrain, Quatar, Iraq, Malaysia, Afghanistan and Saudi Arabia.

- The students displayed their countries' products, including national costumes, periodicals, food and currencies ... etc, in tents that were established in the morning in front of the conferences hall.

- In the evening, the students presented cultural movies about their countries and live shows on stage. More than 1200 students attended the festival, in addition to many Ambassadors and the Embassies' Cultural Counselors.

Memorial pictures of the first international student's festival in the faculty
One of the artistic shows performed by the Syrian students

One of the artistic shows performed by the Malaysian students

Alive performance on stage by Sudanese students
The Second International Student's Festival for
Kasr Al Ainy Medical School
(March, 2009)

Supervised by Prof. Nadia El Feky V. Dean for Undergraduate Education and the International Students' Office, the international students arranged for their second festival. Students of thirteen nationalities participated. The students displayed their countries' products in tents in front of the conference hall.

In the evening, the students presented cultural movies and live shows on the theatre.

Prof. Sameh Farid, the Dean attended the festival. Ambassadors of Palestine, Jordan, Sudan and Yemen as well as Cultural counselors of many embassies shared their students and were welcomed by the dean and the vice-dean. Thousands of faculty students shared the wonderful event.

Dean and vice Dean welcoming Ambassadors of Yemen and Jordan
Gratification of High Achievers

(25\textsuperscript{th} Feb. 2009)

A celebration was arranged by Prof. Nadia El Feky and attended by Prof. Sameh Farid, Dean of Faculty where 70 students and two Malaysian students were gratified and given a certificate and a present.
UNDERGRADUATE PROGRAMME
BYLAWS AND REGULATIONS

For Study and Examination
REGULATIONS & BYLAWS

Faculty Year

Starts in 3rd Sunday of September, the Faculty year is not less than thirty weeks. The study terminates by the end of the final examinations period. Cairo University determines the date of the midyear recess which is two weeks.

Undergraduate Admission:

Students with the highest secondary school grades are admitted through the admission office of the Ministry of Higher Education. No placement aptitude or achievement examination.

Priority for admission is given to the applicants with highest grades of the Egyptian Thanawya Amma. Other National secondary school certificates & as well as International (i.e. GCSE, IGCSE….. etc.) are also accepted through the admission office. Geographical distribution, Good Health & reputation are considered.

Fees for the Egyptian students are 138 LE for new comers and 110 LE/per year there after.

The student can't register himself in more than one Faculty.

Foreign Students:

Present their documents to the foreign students department of the Ministry of Higher Education.
(Wafedeen Department)
Tel: +027954439, +027940029
Postal code: 11461
Address: 2, Dareeh Saad St. off Kasr El Aini St., Cairo, Egypt.

Fees for Foreign students are 3000 Sterling pounds for the first year then 1500 Sterling pounds per each following year.

Cairo University/Malaysian Agreement Students:

The agreement was signed 5/2006 between Cairo University & Malaysian government (JPA) to allow Malaysian students to join Faculty of Medicine to study the undergraduate programme in English.

2006/2007, 108 Malaysian student were enrolled among Faculty of Medicine Students.
More than 430 Malaysian students are enrolled among our students. They are making good progress.

**Other Admissions:**

**Transfer Students:**

- Transference between Faculties is central at Cairo University.
- Priority to students with highest Grades.
- Excellent or very good grades only are accepted.
- Within the first month of Faculty year.
- The work & residence of the students father should be in Cairo.
- Transference from Universities located in great Cairo area or with different learning programmes (eg. Suez-Canal University) are not allowed.
- Transference after onset of clinical stage (fourth grade) is not allowed.
- Number of transferred students should not exceed 5% of registered students of each grade.
- Transference regulations are discussed and approved by the Faculty council for each coming year.

**The examination dates and upgrading conditions:**

</tr>
</tbody>
</table>
- Students are allowed to sit for an examination held in September in the course they have failed or did not sit for.
- Students should pass all courses of preclinical stage to be promoted to clinical stage.
- A student who fail in more than two courses has to repeat the academic year. He can sit for reexamination for two years as regular student & for two other years as external student.
- Final year (6th grade) students can sit for exams for two years (Oct. & June) twice after which still they can sit for exam as external students.

**N.B.:** Student should pay 50 LE for each course examination as external students.

**Suspension:**

Faculty council can suspend the student if he submits acceptable excuses from study & exam for two academic years (following or separate) during his study. The University Council can even increase suspension years if necessary.

**Term exams:**

The student should attend 75% or more of the lectures and practical/clinical classes to be allowed into term exams & 60% attendance is a must to be allowed into final exam.

**Some regulations for the exam:**

1. **Exemption:** A transferred student can be exempted from exams for courses he already passed in other recognized Universities.

2. **Medical excuses:** A sick student should attend to the medical committee of the Faculty the day of the exam to be medically examined if the committee approves his condition he can sit for the next exam & keep his grade.

3. **The faculty can prohibit examination of students who did not fulfil the attendance.** The student will then be given (v. weak). If he passes next exam he will be evaluated as (pass).

4. **If a student fails to attend the exam for serious compelling cause,** the administration can accept his excuse and postpone his exam.

5. **Retardation without excuse:** If no acceptable compelling cause is presented to the Faculty before missing an exam. The student
will be considered as failing (very weak). If he passes the course next exam he will be given (pass).

**The examination rules:**

- Student should attend 30 minutes early.
- No papers, books, mobile phones are allowed in the exam hall; if any he will be subjected to the legal affairs of the Faculty.
- English is the examination language.
- Student should write his name, number & grade in specific location.
- Answers should fill whole pages, no unused pages left before asking for another answer form.
- Any signs or markings of the answer papers are prohibited.
- Students are not allowed to depart before half the time of exam has passed.
- The course professor attends for half an hour at onset of exam.
- Students are not allowed to depart, change seats, or talk.
- Students are not allowed to leave or stand during the last 15 minutes.
- Students deliver their papers by end of exam to controller.

**The student is granted (pass) degree:**

1. If he was previously prohibited from attending the exam.
2. If he did not attend without submitting acceptable excuses.
3. If he had previously failed the course exam.

**Canceling the examination:**

The Faculty Dean can cancel the student’s exam in one or more course as a penalty for misbehaviour.

**Complaints:**

Students can present complaints within two weeks after declaration of the results.

**The student is awarded honor degree:**

- If he did not fail any course during his academic year.
- If his grades were very good or higher.
